Since 1990, New England Interstate Water Pollution Control Commission (NEIWPC), in partnership with its member states, has been coordinating the Annual Nonpoint Source (NPS) Pollution Conference, the premier forum in our region for sharing information and improving communication on NPS pollution issues and projects. The three-day conference brings together all those in New England and New York State involved in NPS pollution management, including participants from state, federal, and municipal governments, private sector, academia, and watershed organizations.

**You are invited to join the conference as a sponsor.** Why should your company become a sponsor? In a word: exposure! Being a sponsor at the Nonpoint Source Pollution conference gives your company the opportunity to network, build and maintain customer relations with existing clients, and widen your exposure to the NPS community.

With a guarantee to reach NPS professionals from around the region, this conference provides an excellent marketing vehicle to a targeted and attentive audience. Space is limited and conference materials are already in production, so ***please reserve your sponsorship early!***

Please contact Michele Piazza at (978) 349-2517 or [mpiazza@neiwpc.org](mailto:mpiazza@neiwpc.org) with questions and to reserve your sponsorship.

For more information about the conference, please visit: [www.neiwpc.org/npsconference](http://www.neiwpc.org/npsconference).
